Dear Sir or Madam:

My wife and I have had the pleasure of working with Ralph Fey and Associates for the past eight years. Not only have we found Mr. Fey to be very competent, but imaginative and creative with his designs. He has the uncanny ability to get a good understanding of the customers and their needs and present designs that are spot on.

Our experience with Mr. Fey has ranged from a total restoration of a historic building in New Hope, which he transformed from ordinary block building to a beautiful building that stands out and catches everyone's attention. Additionally, Mr. Fey did several additions on our home, and it is interesting that of all the rooms in our house the one that consistently get compliments is the Sunroom that was designed by Ralph.

The project that I am most proud of with Mr. Fey was the design to renovate an entire block in the center of New Hope. Ralph out did himself on this project. He was very careful to do a design where he kept the integrity of the location with the local community, while be able to provide the number of units and ascetics that I desired. Unfortunately, we were not able to proceed with the project.

I would highly recommend Mr. Fey for any project that is why we have gone to him for seven projects over the last eight years, and currently having him designing an office addition to our barn.

Sincerely,

Anthony C. Hipple
