To Whom It May Concern:

Re: Ralph C. Fey, AIA Architects

It is my pleasure to recommend the services provided by Ralph C. Fey, AIA Architects of Doylestown, Pennsylvania. We have worked with RCFA on residential and commercial projects over the past several years. Ralph C. Fey, AIA Architects first project with us was the design of our primary residence. The design of our home was unique and beautiful. Many of the contractors and vendors have used photos from our home in their advertisements. The successes of our prior projects lead us to use them with our most recent project at 400 Horsham Road. This project is a renovation and reconfiguration of a 150,000 square foot commercial property. In addition, RCFA works with each new tenant to design their new office suite.

RCFA exhibits an attitude of designing quality architecture, always keeping in mind the client's interests and budget. The level of cooperation and knowledge is evident in the respect and trust they have built up with their clients as well as the engineers and other consultants with whom they work. These are qualities not often found in one firm.

From pre-design to the finished product, Ralph and his talented, dedicated team were helpful, knowledgeable, and understanding of our needs. They were able not only to produce the best design but also to help us make decisions with excellent recommendations based on their past experience and expertise.

Without reservation, I strongly recommend RCFA to anyone considering hiring an architectural/design firm.

Sincerely,

Robert & Cherie Weller
